

AT WORK

When the car was first introduced in 1910, it was a major step forward in the design of a car. It was the first car to have a steering wheel, a dashboard, and a steering column. It was also the first car to have a front engine and a rear axle.

THE CAR

The car was designed by the Ford Motor Company and was built in Ford's factory in Dearborn, Michigan. It was a four-door sedan and was available in two models: a standard model and a deluxe model. The standard model was priced at \$1,200 and the deluxe model at \$1,400.

THE CAR'S HISTORY

The car was a success and was one of the most popular cars of the 1910s. It was a major step forward in the design of a car and was a major success for the Ford Motor Company.
