

3-22-80

Mr. Robert D. Ray:

I feel Iowa, a Place
to grow, is just possible
referring to the crops,
because of the good rich
land. NOT a place
for large numbers of
non english speaking
refugees. Our state,
like others is having
an economic problem.
State employees are not
getting raises that
should be, due to the
economy. Yet we are
expected to open our
arms and wallets to
these Cubans and Vietnamese.
Please stop it.
It could make the
state more depressed.
Taxpayers money should
not be used for such
purposes with out each
of us voting on it.

Roads need repaired,
mentally and Physically
problemmed people need

the money first.
It's nice to be a good
Christian but religion
and politics do not
mix.

Please stop allowing
this. I was told
we have a population
problem already.
